A CHICAGO LIGHTWEIGHT

PACKEY MCFARLAND.

Packey was inoculated with the fight germ while working for his cousin at a boiler works, in the South Side in Chicago. Packey was not the book-keeper or credit man, but was hauled a sledge, hauled out to a pile of junk, and told to make a noise. One of the most important posts in the yard was filled by a negro. It was his duty to pilot the relief mule, which sagged animal was used to help teams pull out of the yard into the street. One day Packey, in a friendly spirit, handed out a story to the black muleteer, a yarn which had always got a big laugh when told at the boiler-workers' annual party. The muleteer heard him through without a word, and at the finish, instead of giving an ear-to-ear smile, he asked Packey if he was a fighter. Packey, who was a little bit of a show-off, and stung at his own audience, Packey sailed into the luckless dingo, and they had to employ crowsbars to pry them apart. The popular decision favored Packey, and from that time he has been successful as a fighter.

BOYDTON HOUNDS.

(Special to The Times-Dispatch.)
BOYDTON, VA., March 11.—Messrs. Overby and Sneed, two of the greatest fox-hunters in America, will have as their guest next week Mr. Harry W. Smith, of Worcester, who has won the American pack defeat Mr. Higginson's English pack at the international hunt trials held near Upperville, Va., two years ago. Boydton pack will show the Northern visitor what real fox-hounds can do after a "red."

VICKERS HAS MACK GUESSING.

Former Tri-State, Picking for Pelicans, Holds Athletics to Two Hits.

NEW ORLEANS, March 11.—Connie Mack, manager of the Philadelphia Athletics, still is in a quandary regarding Harry P. Vickers, alias the "Rube," who had a bad season in the Johnson league last year, but a grand one in the Tri-State. Connie early in 1907 banked heavily on the Rube, but his confidence faded when the Holyoke boy was knocked off the slab game after game. Vickers was shipped to Williamsport under a conditional agreement that he was either to be recalled by Connie, or Blair, now of the Highlanders, selected in his place.

Vickers did grand work for the Tri-Staters in 1907, and Mack took him in place of the youngster, who is materially expected to help the New York backstop department. Harry P. started off poorly this spring in the practice games here, and Mack just had begun to believe he was stung, when yesterday he lent Vickers to the New Orleans Pelicans, with whom the Athletics are now playing a series. The result of the long season was that the Quakers were beaten by a score of 3 to 1. Vickers, holding his team-mates down to two hits, both of which were singles. Connie does not know whether this stunt is what is to be expected in a championship game or whether the usual trimming is in store for the Holyoke Rube.

PULLMAN GETS THERE FIRST.

Reaches Norfolk Half Hour Ahead of the Studebaker.

(Special to The Times-Dispatch.)
NORFOLK, March 11.—The Pullman and Studebaker automobiles, making an endurance run from Philadelphia to Savannah, via the Norfolk Navy yard, arrived at the latter this morning at 8:30, it requiring nearly twenty-four hours to make the run from the Cockade City. The Pullman car led the Studebaker by about thirty minutes.

The Pullman car, in charge of P. F. Gillette, R. L. Morton and G. W. Daley, were just one week and twenty minutes in reaching the navy yard, after leaving the latter at 10:30 A. M. from Philadelphia. After the delivery of the message to the navy yard, the car proceeded to Norfolk, where it attracted a great deal of attention.

The Studebaker car, after delivering its message to Captain Taussig at the navy yard, came over to Norfolk, joining the other car. All reports of mishaps from Petersburg to Norfolk are denied.

The messages borne by the cars to Captain Taussig were in the nature of greetings from Rear Admiral "Pendleton" of the League of Nations Navy Yard, and are of no official significance.

The Pullman car, after nine hours' rest, the Studebaker remained to put on new springs, axle and radiator.

INDOOR MEET WILL BE GREAT AFFAIR

Many Entries from Leading Colleges for Athletic Carnival March 21st.

With entries from many of the leading colleges, the athletic carnival which will be held at the Horse Show building on March 21st will be a sporting event of unusual importance to the South. The University of Virginia, with the finest all-around track team, will be here to capture, if possible, the handsome cup offered the university which scores the largest number of points. Rector, who is considered the fastest dash man in the country, judging by his performance in Baltimore, when he ran 100 yards indoors in ten seconds, will attempt to break the record for fifty yards. Martin, of Virginia, and T. Smith, of Georgetown, will also be participants. They are regarded as the best hurdlers in the South, as their performance in Washington on Saturday night showed their speed when they made Smithson, the champion of America, break a record to beat them.

Richmond College has a fast relay, judging by the team and its victory. The men are anxious to run Virginia, which ought to make a good race. Connors, the crack runner of Wesleyan, sent in his entry yesterday. He is the champion pole-vaulter of the South, expects to do close to eleven feet, which would make a new Southern record. All the high school stars of Washington, Baltimore and Virginia will participate. As the boys have their own events and are closely matched, good competitions are expected. Richmond Academy, Richmond High School and McGuire's School will have their usual hard-fought relay. The Virginia Polytechnic Institute, which has been training for the meet for the past two months, is matched to run George Washington University.

Dr. Joseph H. Reilly, coach of Georgetown University track team, and one of the best runners the world has ever produced, is in town, and will be one of the officials at the meet to be held on March 21st. Dr. Reilly presages one of the greatest meets of the A. A. U. in the South, and he says that the number of men who have participated in other meets throughout the country and who have won enviable reputations will exceed that brought here in previous years. He is confident that the meet will be a huge success.

AGED TROTTER DEAD

PHILIPS, N. Y., March 11.—Darby, a famous trotter of former years, and in his prime known as the "King of the half-mile track," is dead. The little gray has been in the hands of E. P. Ryan, a well-known horseman and hotel man of this place, for the last five years, receiving the gentle care which he deserved. Although well advanced in age, Darby would show some of his former speed at times when matched against younger blood on the local track, and in short-distance heats would hold his own against all comers.

Last fall Mr. Ryan retired the little favorite permanently, and Saturday morning put an end to his earthly career. Darby came of blooded stock, from Almonia and Marlboro King. He had a record of 2:17 1-4, which in his day was considered fast. One of the many feats performed by Darby, well remembered by old-time horsemen, was winning an eleven-heat

series in a single day.

To Have Big Pigeon Shoot.

(Special to The Times-Dispatch.)
DURHAM, N. C., March 11.—On the 25th and 26th of this month there will be in Durham six of the best clay pigeon marksmen in the world. In the squad will be Annie Oakley, who was with the Buffalo Bill Wild West Shows for a number of years. In addition to the six professionals there will be several local sportsmen in the contest, and it will be altogether a fine exhibition of marksmanship.

THE SKATING WONDER

EDMUND LAMEY.

By the records he has made on the ice at Saranac Lake, Montreal, Pittsburgh and New York in the past two weeks he has clearly established his title as the world's amateur champion skater. He was born January 18, 1891, at Saranac Lake, and secured his early experience as a skater on Flower Lake and in the Saranac Lake's A. S. A. races.

man for the Giants, who was practicing at Hot Springs, has returned to Trenton, N. J., by reason of the death of his father. He will join the St. Louis team in about a fortnight.

BASEBALL NOTES.

Batch, the Brooklyn outfielder, who has been released to the Rochester Club, of the Eastern League, will be used on the infield in his new city.

All of the Brooklyn players have signed their contracts, and most of them will leave New York to-morrow by steamer for Florida, where the team will engage in practice.

The statement made that the American League has not cut its salaries since peace was declared with the National League is vehemently denied by American League players, who say that salaries are not so high within 20 per cent. of what they were during the baseball war.

Charles Webb Murphy, president of the Chicago Baseball Club, has asserted that he is not in favor of so-called "organized rosters" clubs. He thinks that it is a little far-fetched to attend ball games equipped with tin pans, squawkers, bells and other noise-producing devices merely to raise a din.

There are several thousands of baseball admirers who quite agree with Murphy. Chicago, by the way, is one of the worst afflicted cities in the baseball circuit in respect to racket and clamor at games.

Harry Clay Pulliam, president of the National A. A. U., will take the "cure" at Muldoon's until the beginning of the baseball season. The coming year is causing him some anxiety.

O'Day and Sheridan will umpire the intercity series in St. Louis, and Emslie and Connolly that in Philadelphia for the spring championship.
